DETAILED ACTION

Allowable Subject Matter

1. The indicated allowability of claims 1-12 is withdrawn in view of the newly discovered reference(s) to Bourke, 5,755,293. Rejections based on the newly cited reference(s) follow. Any inconvenience is sincerely regretted.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. The transitional word (i.e. between the preamble and the body of a claim) "characterized" and phrases incorporating it ("characterized by", "characterized in that", etc.) are common in applications of European origin in us practice claims containing these words and phrases may be rejectable under 35 USC 112 ¶2 when characterization may connote more than mere description (the dictionary definition); in scientific parlance characterization may imply one or more physical steps or procedures (e.g. structure determination, elemental analysis, or qualitative tests) to identify a product. Since it is rare that applicant intends more than a mere description when using this language, physical steps are rarely disclosed. as such, the reader may be unsure about the meaning of the wording of the claims, and additionally the scope of the claim is often unclear ("characterized" conveys no degree of openness). Usually these

troublesome words or phrases can be replaced by the standard transitional words "having", "comprising", "wherein".

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 9-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Bourke, 5,755,293. '293 discloses the claimed invention, see figure 1, shoe **14** and columns 8-10.

Response to Arguments

7. Applicant's arguments with respect to claims 9-17 have been considered but are moot in view of the new ground(s) of rejection.
